Tom,
It went very well. The RA was very enthused about reuse happening because of cooperation and communication between EPA and the cities. She did have questions about why Brownfields funding could not be used at NPL sites. It would be good if someone, maybe Joe, could explain some of the funding firewalls. That said, maybe there could be separate funds to spur reuse at Superfund sites. That could be a cool new thing.
We can talk more,
Michael

Hi Sheila and Mike, just wondering how the tour went yesterday? Did any interesting reuse issue come up?
